## **Surf Thru Express Car Wash Opens Second Location in Tucson Market**

*Company offers free car washes so customers can experience the Surf Thru difference.*

**Tucson, AZ (December 15, 2015)** – Surf Thru Express Car Wash is pleased to announce the opening of their second location in the Tucson market at 35 S. Pantano Rd. at the intersection of Broadway Blvd. This is Surf Thru Express Car Wash’s eighth location including two location in Tucson and six locations in California.

As part of the grand opening Surf Thru Express Car Wash is providing the first 15,000 car washes for free at the Pantano location so customers can experience the difference of a state of the art facility and superior customer service. “Our customer reviews always point out that we have the friendliest employees around and we want everyone to experience the difference a smile can make,” said co-owner Todd Gall.

While all drive through express car washes may appear to be the same they can in fact be dramatically different. Surf Thru Express Car Wash is at the high-end of the express car wash market. The differences include the quality of the equipment, the frequency of cleaning the interior of the car wash and customer service along with water conservation and environmental impact policies. “The Surf Thru Express model is something that most people in Tucson have not experienced. We spare no expense on the equipment that cleans your car and we wash the tunnel every day. Have you ever looked at the inside of a car wash tunnel? If it’s not clean it’s like washing your car in a dirty bathtub,” said Gall.

Surf Thru Express Car Wash is a WaterSavers car wash facility and an industry leader in recycling and reclaiming water. Washing your car at home or going to an older facility can use up to 120 gallons of water to wash a car. Surf Thru Express Car Wash far exceeds industry standards in saving water. In addition, when you wash your car at home you wash brake dust, oils, fluids, dirt and grim directly into the storm drain, which is a serious threat to our rivers, oceans, lakes and sources of water. At Surf Thru Express Car Wash this “muck” is filtered out, stored and properly disposed.

It's also important for Surf Thru Express to have a positive impact in the community. “We have hired 35 people so far in the Tucson area and we will hire more as we grow and expand,” said Gall. Applicants can apply online at [www.surfthruexpress.com](http://www.surfthruexpress.com). Surf Thru Express Car Wash also offers local 501-3c nonprofits fund raising opportunities through various programs including discount coupons and gift card programs.
